

Encaustic Workshop with Barb Mizik, Saturday, October 18, 2025, 9 AM-4 PM

Materials needed:

- 5-7 Wood Cradleboards of various sizes.
 - I suggest getting a few smaller ones, 6x6 or 4x12 and a few up to 8x10.
 - Most have sides that are about 2" deep but you can also use ones that are 7/8"
- ☐ **You can find these on Amazon, Jerry's Artarama, Artists and Craftsman and Blick's. Some are sold with several in a package at a discount.**
- ☐ **You do not need to buy encaustic gesso prepped boards. These are expensive and not necessary for this class.**

All other painting supplies are provided except some items mentioned below that are optional.

- For image transfers: If you want, bring a couple of images to transfer. Prints on lightweight paper from a laser jet printer work well and pictures from magazines. Black and white and color images are both good. Reverse any words or numbers before printing ***.I will have a few designs to experiment with if you don't bring your own.***
- For collage: I will have some samples of paper and small objects to collage into the wax but feel free to bring any of your favorite papers or light weight fabrics, buttons, yarn.
